

Company Profile

Aerotech International is an experienced aviation consultancy company with a diverse range of technical expertise. We offer a wide range of consultancy services to Airlines and Financial Institutions and Law Firms.

The Isle of Man registered company was founded in 2003 by the current business head, Martin Sanderson, with over 27 years experience in the aviation industry. The business has grown in reputation, with the majority of new business coming by direct recommendation from the existing client base. Our current client portfolio includes Cimber Air, Sterling, Banc of America Leasing, CIT Aerospace International, Royal Bank of Scotland, Sigmar Aviation and Flybe Aviation Services.

We have offices in the Isle of Man and Canada supported by 17 consultants with worldwide coverage, in places such as Spain, France, Switzerland, Germany, Malaysia, Philippines, Australia and New Zealand as well as the Isle of Man, UK, Canada and USA.

Aerotech International can provide worldwide technical support to companies like yours in a variety of ways, with a dedicated and flexible team of aviation professionals and an understanding of the requirements of this demanding industry. Just a few of the services that we regularly provide our customers include: -

- Lease Return and New Customer Delivery Project Management
- Repossession and Repatriation
- Aircraft Evaluation and Subsequent Delivery into Operation
- Mid Lease and Asset Monitoring Inspections
- Base Maintenance Input Representation
- Spares Sourcing and Acquisition
- Implanted Engineering Management Consultancy Services
- Supplier Evaluation and Auditing
- Storage Maintenance and Condition Inspection
- Aircraft System and Cabin reconfigurations representation

Aerotech International appears on the Isle of Man Governments list of suppliers in support of the Isle of Man 'M' Register and in 2009 assisted a lease company in the successful transition of three foreign registered aircraft onto the Isle of Man 'safe haven' Register prior to moving the aircraft onto a new operator and an EASA jurisdiction. These were the first aircraft to be accepted onto the Isle of Man register for this purpose.
